## Title: Development of an Artificial Intelligence-Enabled Interview Assessment Framework – From Idea to Website: Practical Web Development Workshop”

The Department of Artificial Intelligence & Data Science Organized a one-day workshop titled “Development of an Artificial Intelligence-Enabled Interview Assessment Framework – From Idea to Website: Practical Web Development Workshop” on 07 February 2026 from 9:30 a.m. to 3:30 p.m. in physical mode.

The session was delivered by Mr. Iniyan, Technical Lead and Corporate Trainer from We Touch Technologies, Coimbatore. The workshop provided students with valuable insights into developing AI-based interview assessment systems and converting

innovative ideas into practical web applications, helping them gain hands-on knowledge in AI and web development.

## Parents – Teachers Meeting

The Department of Artificial Intelligence & Data Science the Department of Artificial Intelligence and Data Science at Selvam College of Technology organized Parents – Teachers Meeting on 14 February 2026 at the college campus. The meeting aimed to strengthen communication between faculty members and parents regarding students' academic progress, attendance, and overall development. Faculty members discussed students' performance and provided guidance to improve academic outcomes. Parents shared their feedback and expectations, which helped create a supportive learning environment. The interaction fostered mutual understanding and cooperation between parents and teachers. The initiative emphasized the importance of collaborative efforts in improving students' academic success, discipline, and professional growth, thereby ensuring continuous enhancement in the teaching-learning process.

## AI-Based Intelligent Energy Optimization and Automation in Smart Home Applications

The Department of Artificial Intelligence & Data Science Organized a one-day workshop titled “AI-Based Intelligent Energy Optimization and Automation in Smart Home Applications” on 28 February 2026 from 9:30 a.m. to 2:45 p.m in physical mode at the AI&DS Lab.

The session was delivered by Mr. Gugan from Live Wire Technology, Coimbatore. The workshop provided students with knowledge about applying Artificial Intelligence for energy optimization and automation in smart home systems. It helped the II year AI & DS students understand practical applications of AI in building intelligent and energy-efficient home solutions.

**Title: AR-VR Solutions for the Modern Workplace: Application in Education and Industry**

The Department of Artificial Intelligence & Data Science Organized a one-day workshop titled “AR-VR Solutions for the Modern Workplace: Application in Education and Industry” on 28 February 2026 from 10:00 a.m. to 2:45 p.m. in physical mode at the AI & DS Classroom. The session was delivered by Mrs. T. Deepa, HoD / AI & DS, Selvam College of Technology, Namakkal.

The workshop provided III year students with insights into Augmented Reality (AR) and Virtual Reality (VR) technologies and their applications in education

and industry, helping them understand how immersive technologies are transforming modern workplaces.

**AI&DS, CSE and IT**

**Industrial Visit at BSNL-Salem**

The Department of IT, Selvam College of Technology organized an Industrial Visit to the Bharat Sanchar Nigam Limited (BSNL) Exchange Office, Salem 07 February 2026 for Second Year IT students. Students gained practical knowledge about telecommunication systems, network operations, and switching technology. BSNL officials explained the working process and demonstrated equipment used in communication networks. The visit helped students connect theoretical knowledge with real-time industry practices and enhanced their understanding of communication technologies and a total of 60 students benefited out of this programme.

### Title: Poster Creation on Digital Awareness

The Department of CSE & IT, Selvam College of Technology organized an activity titled “Poster Creation on Digital Awareness” 07 February 2026.

Students created posters on cyber safety, data privacy, online ethics, and social media responsibility. The activity encouraged creativity and highlighted the importance of digital security.

It successfully promoted awareness about safe and responsible use of digital technology at the end of this programme students made a poster out of this best poster photo attached here.

### Startup Launch, Eleven Sources of Business Ideas, and Idea Generation

The Department of AI & DS, CSE, ECE & IT organized a Startup Programme for III year students 07 February 2026. The programme focused on Startup Launch, Eleven Sources of Business Ideas, and Idea Generation. Students learned about identifying opportunities from market needs, technology, and social challenges. The session inspired students to develop entrepreneurial skills and innovative thinking in this programme a total number of 200 students benefited

### CSE and IT

### Title: Drug Awareness Rally

The Department of CSE and IT organized a “Drug Awareness Rally” on 28 February 2026 at Namakkal. II Year CSE & IT students participated along with the Namakkal District Police. Students carried placards and spread awareness about the harmful effects of drug abuse. The rally encouraged the public to lead a healthy and drug-free life at the end of this programme a total number of 150 students benefited.

## Intelligent Agents: The Next Frontier of Artificial Intelligence

The Department of CSE and IT organized a workshop titled "Intelligent Agents: The Next Frontier of Artificial Intelligence" on 28 February 2026. The session was delivered by Mr. Sasidharan Srinivasan, Chief Learning Officer of Amphisoft Technologies. The workshop explained intelligent agents, their architecture, and applications in AI. It enhanced students' knowledge and motivated them to explore careers in Artificial Intelligence.

## CIVIL

### Industrial Visit – Sivasakthi Flyash Brick Manufacturing Company

The Department of Civil Engineering, Selvam College of Technology organized an Industrial Visit to Sivasakthi Fly-ash Brick Manufacturing Company, Anniyapuram, Mohanur, Namakkal on 07 February 2026 for Second Year Civil Engineering students. The visit aimed to provide students with practical exposure to industrial manufacturing processes and quality control practices involved in fly-ash brick production.

During the visit, the industry personnel explained the raw materials used, brick molding process, drying

methods, and curing techniques involved in the production of fly-ash bricks. Students also observed the machinery operation, material mixing procedures, and environmental benefits of using fly-ash in construction materials.

Through this industrial visit, students gained valuable practical knowledge about industrial production processes, waste material utilization, and sustainable construction practices, enhancing their understanding of real-world industrial applications

## Parents Teachers Meeting

The Department of Civil Engineering, Selvam College of Technology organized “Parents Teacher Meeting On 14 February 2026. for Second and third Year Civil Students.

The meeting provided a good platform for parents and faculty members to discuss students' academic progress, performance, and overall development. During the meeting, parents were able to interact directly with the faculty and gain a clear understanding of their ward's strengths, areas for improvement, and future academic goals.

## BME

### Outreach Programme – Medical Camp” at Mullampatti Salai, Namakkal

The Department of Biomedical Engineering organized an Outreach Programme – “Medical Camp” at Mullampatti Salai, Namakkal, 07 February 2026, in alignment with SDG 3 – Good Health and Well-being. The camp aimed to provide basic healthcare services to the rural community and to create awareness about preventive healthcare practices.

During the programme, Free medical check-ups, including blood pressure monitoring, blood glucose testing, BMI assessment, and general health screening, were conducted under the supervision of qualified healthcare professionals. Basic medications were distributed, and health awareness sessions on hygiene, nutrition, and lifestyle modifications were conducted to the beneficiaries.

The programme also helped students gain practical exposure while enhancing their sense of social

responsibility and communication skills. The initiative was well received by the public and had a positive impact on the community. Nearly 65 students actively participated, making the event both service-oriented and educationally enriching.

### Hands-On Training on “Medical Coding- Beginners Level

The Department of Biomedical Engineering at Selvam College of Technology organized a hands-on training program on “Medical Coding- Beginners Level” on 28 February 2026.

The training session was handled by the resource person, Ms. M. Anbarasi, B.E., Senior Medical Coder, Medingers Healthcare, Erode. The training focused on the fundamentals of Medical Coding – Beginners Level, including introduction to healthcare documentation, basic medical terminology, anatomy and physiology review, and an overview of coding systems such as World Health Organization-developed ICD-10, CPT, and HCPCS. Students were trained in interpreting physician notes, identifying diagnoses and procedures, and assigning appropriate codes using sample case sheets.

The programme also included practical exercises,

including chart review, code selection, and error identification under expert guidance. Real-time coding scenarios, common beginner mistakes, and basic compliance guidelines were also discussed to enhance accuracy and confidence. The program was highly insightful and approximately 105 students benefited from the session.

**Title: Phytochemical screening of medicinal plants**

The Department of Biotechnology at Selvam College of Technology organized a hands-on training programme on “Phytochemical Screening of Medicinal Plants” on 07 February, 2026, for second-year Biotechnology students. The session was conducted by Ms. S. Kawya, Assistant Professor, Department of Biotechnology. It provided practical exposure to various phytochemical analysis techniques used to identify bioactive compounds in medicinal plants. Students gained hands-on experience in laboratory procedures, sample preparation, and qualitative phytochemical tests. The programme was highly beneficial, with over 50 students participating and gaining valuable

**BASIC Dosage Calculation & Safety**

The Department of Biotechnology at Selvam College of Technology organized a hands-on training programme on “Basic Dosage Calculation and Safety” on 07 February, 2026, for second- and third-year Biotechnology students. The session was conducted by Mr. K. Prakash Singh, Assistant Professor and Head of the Department of Pharmaceutical Technology, Gnanamani College of Technology. The training focused on the importance of accurate dosage calculations and safety measures in pharmaceutical and biotechnology laboratories. The programme enhanced students' analytical skills, safety awareness, and practical understanding of dosage calculations. More than 50 students benefited from the session.

### Food Nutritional Analysis

The Department of Biotechnology at Selvam College of Technology organized a hands-on training programme on “Food Nutritional Analysis” on February 7, 2026, for third-year Biotechnology students. The session was handled by Mr. K. Kirubhakaran, Assistant Professor, Department of Biotechnology. Students were introduced to various methods used to estimate nutrients such as carbohydrates, proteins, fats, vitamins, and minerals in food products.

The training also provided practical exposure to laboratory techniques used in food quality assessment and nutritional evaluation. More than 60 students benefited from the programme.

### Medical Camp “for Parents

The Department of Biotechnology at Selvam College of Technology organized a medical camp for parents on February 14, 2026. The programme provided hands-on experience in using health monitoring equipment and understanding basic medical screening procedures. Students had the opportunity to observe and participate in measuring physiological parameters such as pulse rate and oxygen saturation using digital devices.

The camp witnessed active participation, with nearly 200 parents and 50 students benefiting from the initiative.

### Tech Vision-2k26

The Department of Biotechnology, Selvam College of Technology, organized Tech Vision-2k26 on 14 February 2026, focusing on environmental conservation and sustainable agricultural practices. During the event, students presented innovative projects including Seed Ball, Soilless Farming, and a Backbone Model, providing hands-on demonstrations.

The expo highlighted modern techniques like hydroponics, efficient water usage, and soil-less cultivation, while the backbone model helped students understand human anatomy visually and practically.

Nearly 200 parents and 50 students attended the event, gaining valuable insights into ecological balance,

### Parents Teachers Meeting

The Department of Biotechnology at Selvam College of Technology organized a Parents-Teachers Meeting on February 14, 2026, for second- and third-year Biotechnology students. The meeting provided a platform for parents and faculty members to discuss students' academic progress, performance, and overall development. During the session, parents interacted with faculty members and gained a clear understanding of their wards' strengths, areas for improvement, and future academic goals.

## Outreach programme on "Importance of the nutritional health benefits" among rural area people at Kattur, Trichy

The Department of Biotechnology, Selvam College of Technology organized an outreach programme on "Importance of Nutritional Health Benefits" among rural people at Kattur, Trichy On 28.02.2026. The programme aimed to create awareness about balanced diet, essential nutrients, and healthy lifestyle practices.

## Industrial Visit

The Department of Biotechnology at Selvam College of Technology organized an industrial visit to Kothari Sugar Mills Pvt. Ltd., Kattur, Tiruchirappalli, on February 28, 2026, for second- and third-year Biotechnology students. The visit provided practical exposure to industrial processes involved in sugar production and related biotechnological applications. Students observed various stages of sugar manufacturing, including sugarcane crushing, juice

extraction, clarification, evaporation, crystallization, and packaging. The programme was highly informative, benefiting more than 100 students.

## ECE

## Smartphone Servicing Basics

The Department of Electronics and Communication Engineering organized a technical workshop on Smartphone Servicing Basics on 07 February 2026 as part of its skill development initiatives. The workshop was conducted by Mr. M. Dinesh Kumar, alumni (2025 Batch) and professional mobile service technician working at MD's Mobile Service Centre, located in Namakkal.

The workshop provided students with practical insights into smartphone hardware components, fault identification techniques, and basic servicing procedures. The workshop aimed to enhance students' hands-on technical knowledge, improve troubleshooting skills, and create awareness about career opportunities in mobile servicing and electronics maintenance.

The programme served as a valuable platform for second year a total of 62 ECE students to interact with an industry professional and understand real-time service challenges and solutions.

## Create Digital Awareness Videos and Posters

The Department of Electronics and Communication Engineering organized a workshop on “Create Digital Awareness Videos and Posters” on 07 February 2026 at 09.30 a.m as part of its academic and social responsibility initiatives. The session was delivered by N. S. Elakkiya, Head and Assistant Professor, Department of ECE, at Selvam College of Technology, Namakkal.

The workshop focused on educating students about creating effective digital awareness content using videos and posters for social, health, and public information campaigns. The session helped students understand content planning, message clarity, digital design basics, and the role of media in spreading awareness.

The programme enhanced Third Year ECE students' creativity, communication skills, and digital content development knowledge while encouraging them to contribute to society through responsible digital communication.

The poster is for a workshop organized by the Department of Electronics and Communication Engineering at Selvam College of Technology. It features the college's logo and accreditation details (NAAC 'A' grade, UGC 2(F) status). The workshop is for III-Year ECE students, held on 07.02.2026 at 9.30 am in the DSP Lab. The resource person is Mrs. N.S. Elakkiya M.E., (Ph.D), Head & AP of the ECE department.

## Guest lecture on “cyber shield: awareness and safety programme”

The Departments of AI&DS, CSE, ECE and MBA jointly organized a Guest Lecture on “Cyber Shield: Awareness and Safety Programme” on 07 February 2026 at 09:30 a.m in the ISDTP Seminar Hall.

The programme aimed to create awareness among students about cyber security threats, online safety practices, and cybercrime prevention. The session was organized for II Year AI&DS, CSE, ECE and MBA students, and a total of 150 students benefited from the programme. The expert session was delivered by Mr. R. Vijayaragavan, Additional Superintendent of Police, Cyber Crime Wing, who explained various types of cybercrimes, digital frauds, social media risks, and legal actions related to cyber offenses. The programme also featured Ms. D. Roselin Anthoniamal, Sub-Inspector of Police, Cybercrime Police Station, who provided practical guidance on safe internet usage, digital privacy protection, and steps to take while facing

cyber threats.

The programme enhanced students' awareness about cyber safety, responsible digital behavior, and legal aspects of cyber security. The session also encouraged students to become responsible digital citizens and stay vigilant against emerging cyber threats.

The poster is for a guest lecture organized by the Department of AI&DS, CSE, ECE and MBA at Selvam College of Technology. It features the college's logo and accreditation details. The guest lecturer is Dr. R. Vijayaragavan, M.A., M.P.Ed., Ph.D., Additional Superintendent of Police, Cyber Crime Wing, Namakkal. The resource person is Tmt. D. Roselin Anthoniamal, Sub-Inspector of Police, Cybercrime PS, Namakkal. The lecture is for II-Year AI&DS, CSE, ECE & MBA students, held on 07.02.2026 at 09:30 am in the ISDTP Seminar Hall.

## Li-Fi Based Wireless Data Transfer

The Department of Electronics and Communication Engineering organized a technical workshop on Li-Fi Based Wireless Data Transfer on 28 February 2026 at the Circuits and Devices Laboratory as part of its initiative to enhance students' knowledge in emerging communication technologies. The workshop was handled by Mrs. N. S. Elakkiya, M.E., (Ph.D), Head & Assistant Professor, Department of ECE, and Mrs. D. Ezhilarasi, M.E., Assistant Professor, Department of ECE, Selvam College of Technology, Namakkal.

The session introduced students to the fundamentals of Light Fidelity (Li-Fi) technology and its role in high-speed wireless communication using visible light. The resource persons explained the working principle of Li-Fi systems, components involved in optical wireless communication, transmitter and receiver design, and practical implementation aspects for wireless data transfer.

Students also gained insights into the advantages of Li-Fi over conventional RF-based communication, including higher bandwidth, improved security, and reduced electromagnetic interference.

The programme served as an informative

The poster for the Li-Fi based Wireless Data Transfer workshop features the Selvam College of Technology logo at the top left, including accreditation details from NAAC and AICTE. The main title is 'Li-Fi based Wireless Data Transfer' in white text on a dark red background. It lists the organizing department as 'Department of Electronics and Communication Engineering' and identifies the resource persons as Mrs. N.S. Elakkiya and Mrs. D. Ezhilarasi. The event details include the date '28.02.2026', time '9.30 AM', and location 'Circuits and Devices Lab'. The target audience is 'III - Year ECE Students'.

learning platform for Third Year ECE students, helping them connect theoretical concepts with practical applications in next-generation communication technologies.

## Smart Warehouse Using IoT

The Department of Electronics and Communication Engineering organized a hands-on training program on Smart Warehouse using IoT on 28 February 2026 at the DSP Laboratory as part of its initiative to promote practical learning in emerging technologies. The training session was conducted by Er. R. Rajeshkumar, M.E., Chief Executive Officer, CAD Designs, Karur.

The programme introduced students to the concept of IoT-enabled smart warehouse systems, focusing on automation, real-time monitoring, and efficient inventory management. The resource person demonstrated how sensors, microcontrollers, and IoT platforms can be integrated to track goods, monitor environmental conditions, and optimize warehouse operations.

Students gained practical exposure to IoT-based data collection, device connectivity, and cloud-based monitoring systems used in modern logistics and supply chain management. The training aimed to enhance students' practical knowledge of IoT applications in industrial environments and to familiarize them with smart automation techniques

The poster for the Smart Warehouse using IoT hands-on training program features the Selvam College of Technology logo at the top left. The main title is 'Smart Warehouse using IoT' in white text on a dark blue background. It lists the organizing department as 'Department of Electronics and Communication Engineering' and identifies the resource person as Er. R. Rajeshkumar. The event details include the date '28.02.2026', time '9.30 AM', and location 'DSP Lab'. The target audience is 'II - Year ECE Students'.

used in warehouses. The session xt-generation communication technologies.

served as an interactive learning platform for second Year ECE students, helping them understand how IoT technology can transform traditional storage and inventory systems into intelligent and efficient smart warehouses.

### Seed Ball Distributions and Techno Vision 2k26

The Department of Electronics and Communication Engineering and Biotechnology jointly organized “Seed Ball Distributions and Techno Vision 2k26,” 28 February 2026 at 09.30 a.m. The Project expo was conducted exclusively for SCT Parents and Employees. In Project Expo ECE Students showcased their innovative projects such as 1. Smart Dustbin, 2. Traffic light Controller 3. Smart Robot 4. Water Level Indicator and practical applications of engineering concepts. The programme, conducted in physical mode, proved to be highly informative and engaging. It helped students enhance their understanding of project design, technical creativity, and real-world technological applications.

More than 300 students and over 200 parents benefited from the programme, making it a successful and impactful event.

## EEE AND MECH

### Hands-on Training on Power Generation Using Renewable Energy (Solar)

The Department of Electrical and Electronics Engineering and the Department of Mechanical Engineering, Selvam College of Technology, Namakkal, organized a Hands-on Training on Power Generation Using Renewable Energy (Solar) on 07 February 2026 (Saturday) for Third Year EEE and Mechanical Engineering students. The resource persons, Mr. Shanmugavadivel, Managing Director, and Mr. R. Udhayan, Manager–Operations, Zen core Solar, Salem, explained the fundamentals of solar power generation systems and their working principles. The session covered solar inverters, charge controllers, batteries, protection devices, and the measurement and analysis of solar power output, efficiency, and performance parameters. A live demonstration of grid-connected and off-grid solar systems was also conducted. In addition, the speakers provided an overview of government policies, subsidies, and career

## Hands-on Training on Drone Design, Assembly, Applications & Government Opportunities

The Department of Mechanical Engineering and Electrical and Electronics Engineering of Selvam

College of Technology, Namakkal, organized a Hands-on Training on Drone Design, Assembly, Applications & Government Opportunities on 07 February 2026 at the CAD Lab. The session was handled by Dr. C. Thiruvassagam, IIC Director of Flytutor Technologies, Namakkal. The resource person explained the basic concepts of drone technology, components, and assembly techniques. Students also learned about various applications of drones in agriculture, surveillance, and mapping. The session highlighted government initiatives and career opportunities in the drone sector, providing valuable practical knowledge and encouraging students to explore emerging technologies in unmanned aerial systems.

## Seminar On: The Evaluation of Electrical Power System

The Department of Electrical and Electronics Engineering at Selvam College of Technology, Namakkal, organized a seminar on “The Evaluation of Electrical Power System” on 28 February 2026 at 9:30 a.m. in the EEE Seminar Hall. The session was delivered by S. Sabarinathan, Electrical Engineer at Tamil Nadu Electricity Board, Earipalayam Substation, Coimbatore. The resource person explained the fundamentals of electrical power systems, their operation, and evaluation methods used in real-time power

distribution networks. The seminar provided valuable knowledge to First and Second Year EEE students and helped them understand practical aspects of power system analysis and its importance in modern electrical engineering applications.

## Parents–Teachers Meeting

The Department of Electrical and Electronics Engineering at Selvam College of Technology organized a Parents–Teachers Meeting on 14 February 2026.

The meeting aimed to strengthen communication between faculty members and parents regarding students' academic progress, attendance, and overall development.

During the interaction, faculty members discussed students' performance and provided guidance for improving academic outcomes. Parents shared their feedback and expectations, which helped create a supportive learning environment.

The meeting encouraged mutual understanding and cooperation between parents and teachers to

enhance students' academic success, discipline, and professional growth, ensuring continuous improvement in the teaching–learning process.

## Build a Career with Building Information Modelling (BIM)

The Departments of Electrical and Electronics Engineering and Mechanical Engineering at Selvam College of Technology, Namakkal, organized an event titled “Build a Career with Building Information Modelling (BIM)” on 28 February 2026 at 9:30 a.m. in the CAD Laboratory. The session was delivered by

Mr. Rajkumar Nallusamy, BIM Manager at BIM Modeller Consulting Services, Karur.

The resource person explained the fundamentals of BIM, its applications in construction and infrastructure projects, and career opportunities in the BIM industry.

The programme provided valuable insights for Third Year EEE and Mechanical students and helped them understand emerging technologies and career prospects in the modern construction and engineering sector.

## Seminar On: Transmission and Distribution

The Department of Electrical and Electronics Engineering (EEE) in association with the Department of Science and Humanities organized a seminar on “Transmission and Distribution” on 28 February 2026 at 1:30 p.m. in the EEE Seminar Hall. The resource person Er. S. Sathishkumar explained key concepts, challenges, and recent developments in the power sector. The event provided a valuable learning opportunity for students and encouraged them to strengthen their technical understanding in the field of electrical engineering. Faculty members and students actively participated in the session.

## Parents-Teachers Meeting

The Department of Mechanical Engineering at Selvam College of Technology organized a Parents-Teachers Meeting on 14 February 2026. The meeting aimed to strengthen communication between faculty members and parents regarding students' academic progress, attendance, and overall development.

During the interaction, faculty members discussed students' performance and provided guidance for improving academic outcomes. Parents shared their feedback and expectations, which helped to create a supportive learning environment.

The meeting encouraged mutual understanding and cooperation between parents and teachers to enhance students' academic success, discipline, and professional growth, ensuring continuous improvement in the teaching-learning process.

## MECH

## Hands-on Training Program on “3D Printing: Design to Prototype”

The Department of Mechanical Engineering successfully conducted a Hands-on Training Program on “3D Printing: Design to Prototype” at the CAD Laboratory. The programme aimed to provide students with practical exposure to additive manufacturing technologies, enabling them to transform digital designs into physical prototypes through a systematic workflow. The training sessions were handled by Mr. Aravindhan A, ATAL Trainer cum In-charge, Selvam Educational Institutions, Namakkal, who delivered

comprehensive insights into the fundamentals and applications of 3D printing technology. The sessions covered key aspects such as 3D modeling for additive manufacturing, file preparation and slicing, material selection, printer setup and calibration, layer-by-layer fabrication process, troubleshooting techniques, and post-processing methods.

### One credit course on “Autodesk Fusion 360”

The Department of Mechanical Engineering successfully conducted a One Credit Course on “Autodesk Fusion 360” at the CAD Laboratory under the ICTACT initiative. The programme introduced students to industry-standard, cloud-based design tools, covering 3D modeling, simulation, and manufacturing workflows. The course sessions were handled by Mr. M. Anbalagan and Dr. R. Kandasamy, Assistant Professor, Department of Mechanical Engineering, SCT, who explained the key features of Fusion 360, including 3D modeling, parametric design, simulation, rendering, and manufacturing applications. The training emphasized industry relevance, design innovation, and career opportunities associated with Autodesk Fusion 360, helping students bridge the gap between academic learning and industrial requirements. A total of 25 students benefited from the course.

### Making Products out of Waste Items and Expo Arrangements

The Department of Science and Humanities, Selvam College of Technology, Namakkal successfully organized an event on “Making Products out of Waste Items and Expo Arrangements” The event aimed to create awareness among students about waste management, recycling, and sustainable product development. The training session was handled by the resource persons Dr. R. Thangammal, Assistant Professor, Department of Mathematics, Ms. K. Poorani, Assistant Professor Department of Mathematics and Mrs. A. Noorul Aarifa, Assistant Professor, Department of Chemistry, Selvam College of Technology, who provided support and guidance on converting waste materials into useful and eco-friendly products. Students learned to work with materials such as paper,

plastic, fabric, and household waste, focusing on product design and finishing techniques. A total of 61 students actively participated and benefited from this informative and practical session.

## Blood Donation Camp

A Blood Donation Camp was successfully organized by the Department of Biomedical Engineering (I BME) in collaboration with Namakkal Melvin Metro Arima Sangam, Selvam College of Technology, and Namakkal Medical College Blood Bank. The programme was conducted with the objective of promoting voluntary blood donation and creating social awareness among students. The function was presided over by Dr. S. Babu, Chairman, Selvam Educational Institutions, in the august presence of Dr. B. Kaviethra Nandhini, Secretary, Selvam Educational Institutions, and Mr. M. Karthik, Executive Director, Selvam College of Technology. Dr. S. Ramabalan, Principal, addressed the students and highlighted the importance of holistic growth. Head, Department of Science and Humanities, welcomed the gathering.

The event was organized under the guidance of Dr. S. Seenivasan, Head of the Department of Physics, who

served as the overall in-charge of the programme. The event coordination and arrangements were effectively managed by Ms. S. Devaki, Assistant Professor, Department of Civil Engineering. A total of 50 student volunteers actively participated in organizing the camp, assisting in registration, donor coordination, and ensuring the smooth conduct of the event. The camp witnessed an excellent response, with 100 blood donors generously donating blood for a noble cause.

## Seed Ball Making

The Department of Biotechnology, Selvam College of Technology, organized a programme on “Seed Ball Making” to promote awareness on eco-friendly and sustainable agricultural practices. The session was handled by Dr. S. Sathiya, Assistant Professor, Department of Chemistry, and Ms. A. Jawahar Nisha, Assistant Professor, Department of Biotechnology. They provided both theoretical knowledge and hands-on training on the importance of seed balls in reforestation, biodiversity conservation, and sustainable agriculture.

A total of 92 students actively participated in the programme, gaining practical exposure to simple and effective ecological restoration techniques. The event was highly informative and beneficial for all participants.

The programme also emphasized the role of youth in promoting responsible behavior on roads. A total of 120 students participated and benefited from this informative session.

### Road Safety Awareness Programme

The Department of Science and Humanities of Selvam College of Technology, Namakkal, successfully organized an awareness programme on “Road Safety Awareness and Traffic Rule Compliance.”

The event aimed to educate students on the importance of road safety, adherence to traffic rules, and individual responsibility in preventing accidents. The session was handled by Mr. R. Venkatachalam (SP), Mr. M. Periyasamy (AP & NSS Officer), and Dr. R. Kandhasamy (AP & Student Coordinator), who provided valuable insights on defensive driving and traffic regulations. Key topics included the importance of wearing helmets and seatbelts, understanding traffic signals, and the risks of over-speeding and distracted driving.

Students actively participated in interactive discussions and demonstrations, gaining practical knowledge on road safety measures. d from the awareness programme.

## Hands on Training Program on "Handling Medical Equipments in Hospitals"

The Department of Biomedical Engineering at Selvam College of Technology (Autonomous), Namakkal, organized a hands-on training programme on "Handling Medical Equipments in Hospitals" at Saravana Hospital, Namakkal on 07 February 2026. The session was conducted by Dr. Kavitha Saravanakumar, who demonstrated the working principles, calibration, maintenance, and troubleshooting of essential clinical devices such as ECG machines, patient monitors, infusion pumps, and defibrillators. Students were also trained in electrical safety, infection control, and hospital documentation practices. A total of 50 students benefited from the programme, which significantly enhanced their practical knowledge and strengthened academic-clinical collaboration.

## Program on "Hill Safety & Plastic Awareness Program" Held at Selvam College of Technology

Selvam College of Technology, through the Departments of CSE, IT, AI&DS, and EEE, organized a "Hill Safety & Plastic Awareness" to promote environmental responsibility and personal safety. The session was handled by Mr. S. Vignesh, Assistant Professor, Department of Mathematics, who shared insights on hill safety measures, responsible tourism, and the harmful effects of plastic pollution. He also provided practical guidelines and real-life examples to enhance student awareness. The programme emphasized cleanliness in tourist areas and the importance of reducing plastic usage to protect natural ecosystems. A total of 107 students actively participated and benefited from this informative session.

received appreciation from participants, including parents and residents from nearby villages. The camp benefited many attendees by facilitating early detection of vision problems and promoting awareness on eye care and hygiene.

## Workshop on "AI Based Recommendation Systems" held at Selvam College of Technology

The Department of Science and Humanities organized a workshop on "AI-Based Recommendation Systems" on 28 February 2026 from 9:30 a.m. to 03:15 p.m. at the EEE Simulation Lab for I-Year AI&DS students. The session was handled by the resource person, Er. M. Raja, Technical Head, R Tech Solutions, Salem. The resource person delivered an informative session explaining the concepts, techniques, and real time applications of recommendation systems. He provided clear explanations on how AI is used to analyze user data and generate personalized recommendations on various platforms. The program was highly informative and beneficial for the participants. I Year AI and DS students actively

## Developing Smart Health Care Monitoring Systems Using Tinkercad

The Department of Biomedical Engineering, Selvam College of Technology, successfully organized a Hands-on training programme on “Developing Smart Health Care Monitoring Systems Using Tinkercad”.

The primary objective of this hands-on training programme was to provide students with practical exposure to designing and simulating smart healthcare monitoring systems, understanding virtual circuit components, sensor integration, and real-time health parameter monitoring using simulation tools. The training session was handled by the resource person, Ms. D. Elanseela, AP/ECE, Selvam College of Technology, Namakkal.

The session commenced at 09:30 a.m. on 28 February 2026 and featured an insightful presentation explaining the fundamentals of smart healthcare monitoring, virtual circuit design, sensor interfacing,

and simulation of biomedical parameters such as temperature, heart rate, and patient monitoring alerts. The session emphasized the growing importance of digital prototyping and simulation in modern healthcare technology development.

The programme was highly informative and beneficial, offering students valuable exposure to emerging smart healthcare technologies, and 58 participants benefited from this event.

The programme was highly informative and concluded successfully with enthusiastic student involvement.

## Hands on Training on “Google Workspace Power Skills

The Department of Science and Humanities organized a Hands-on Training programme on “Google Workspace Power Skills” for I Year ECE students on 28 February 2026 during the Forenoon session at the CAD Lab. The workshop aimed to equip students with essential digital productivity and professional skills required for academic excellence and future workplace

readiness. The training session was conducted by Mr T. Sivanesan Assistant Professor, Department of Computer Science and Engineering, Selvam College of Technology.

The resource person provided in-depth technical guidance along with live demonstrations, helping students understand the effective use of various Google Workspace applications. The programme was highly informative and beneficial, equipping students with valuable digital competencies and real-world productivity skills. A total of 51 participants actively took part in the training programme.

## Hands on training on Google Workspace Power Skills

The Department of Electronics and communication Engineering, Selvam College of Technology, successfully organized a hands-on training programme on “Google Workspace Power Skills.” The objective of the programme was to enhance students' digital productivity, collaboration skills, and practical knowledge in using modern cloud-based tools for academic and professional purposes. The training session was conducted by Mrs. R. Bhuvaneshwari, Assistant Professor, Department of Computer Science, Selvam College of Technology. The resource person provided in-depth technical guidance along with live demonstrations, helping students understand the effective use of various Google Workspace applications.

The programme was highly informative and beneficial, equipping students with valuable digital competencies and real-world productivity skills. A total of 51 participants actively took part in the training programme.

## Web Application Design and Development Essentials

The Department of Science and Humanities organized a workshop on “Web Application Design and Development Essentials” for First Year Computer

Science and Engineering students. The session, conducted via Google Classroom, aimed to provide foundational knowledge on web technologies, design principles, and modern development practices. The resource person, Er. P. Bharathi, Senior Software Developer (Node & .NET), explained key concepts such as front-end and back-end development, web architecture, and introduced Node.js and .NET frameworks. The workshop offered practical insights into real-time web application development and helped students strengthen their technical understanding.

## Workshop on Cyber Security Essentials for IT Professionals

Selvam College of Technology, Department of Science and Humanities, successfully organized a Workshop on “Cyber Security Essentials for IT Professionals” for First Year IT Students on 28 February 2026. The workshop was conducted with the objective of creating awareness among students about the

importance of cyber security in today's digital world and to enhance their practical knowledge on protecting information systems and data from cyber threats. The session aimed to equip students with essential skills required for IT professionals to safeguard digital assets and ensure secure computing practices. The resource person for the workshop was Er. S. Hariraj, Cyber Security Consultant, Pargavan Cyber Solutions, Salem, who provided in-depth theoretical knowledge along with practical insights from real-time industry experience. The session covered fundamental concepts of cyber security including types of cyber threats, phishing attacks, malware, ransomware, data protection techniques, password security, network security basics, and safe internet practices. A total of 57 participants actively participated and benefited from the workshop, making the program a grand success.

### Consolidated Report on Parents-Teachers Meeting for First-Year Students

The Department of Science and Humanities organized a Parents-Teachers Meeting (PTM) for first year engineering students of all departments at Selvam College of Technology. Dr. S. Ramabalan, Principal and Dr.A.Jeagan Vice Principal addressed the parents and emphasized the importance of parental involvement in students' academic success and personal growth. The Dean Academics of Science and Humanities welcomed the gathering and explained the purpose of the meeting.

Parents met faculty members of their respective departments including CSE, IT, AI&DS, ECE, EEE, BME, Civil, Mechanical, and Biotechnology in designated staff rooms and venues. Faculty discussed students'

academic performance, attendance, practical learning, and participation in activities. Parents were informed about various hands-on training sessions and laboratory practices conducted across departments. They actively interacted with teachers, shared concerns, and received suggestions for improvement such as regular study habits and time management.

The meeting saw the participation of a large number of parents and was successful in strengthening the relationship between parents and the institution. The Department of Science and Humanities expressed gratitude to the management, faculty members, and parents for their support and cooperation.

### SCT Speaker forum

The SCT Student Speakers' Forum was successfully organized in February 2026 with the objective of fostering effective communication, critical thinking, and public speaking skills among students. The event served as a dynamic platform for participants to express their ideas, enhance confidence, and engage in intellectual discussions.

The programme was inaugurated by Dr. A. Jegan, Vice Principal of Selvam College of Technology, who highlighted the significance of effective communication, clarity of ideas, and leadership qualities in shaping students' academic and professional success. His motivating address encouraged students to actively participate and make the best use of such opportunities. Students from nine departments—Computer Science and Engineering (CSE), Artificial Intelligence and Data Science (AIDS), Information Technology (IT), Electronics and Communication Engineering (ECE), Electrical and

Electronics Engineering (EEE), Biomedical Engineering (BME), Biotechnology, Civil Engineering, and Mechanical Engineering—enthusiastically participated in the forum. They delivered speeches on a variety of contemporary, social, technological, and academic topics, demonstrating their knowledge, creativity, and analytical thinking skills. The sessions were highly interactive and engaging, promoting peer learning and constructive feedback. Participants gained valuable experience in organizing their thoughts, improving

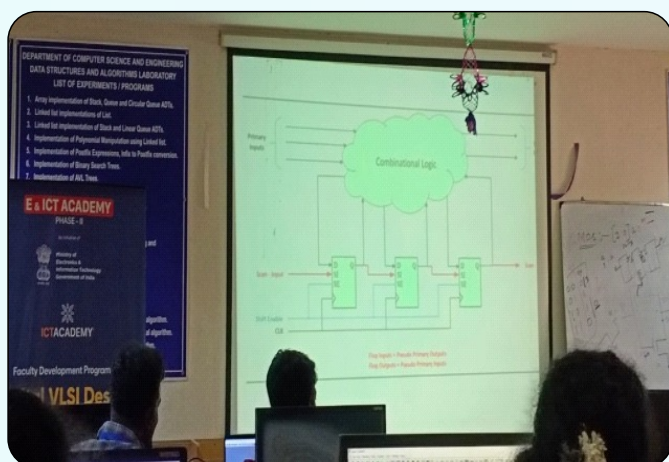

their articulation, and building confidence in public speaking.

To recognize and encourage student participation, e-certificates were awarded to all participants, and special e-certificates were presented to the winners for their outstanding performance. This recognition motivated students to actively involve themselves and strive for excellence. They actively took part in the training program.

### Five-day Faculty Development Program (FDP) on "Digital VLSI Design, FPGA & Testability"

The Department of Electrical and Electronics Engineering, Electronics and Communication Engineering and Mechanical Engineering Faculties Attended five days FDP at Ganesh College of Engineering, Salem, and the same was successfully hosted a five-day Faculty Development Program (FDP) on "Digital VLSI Design, FPGA & Testability" from February 9th to 13th, 2026. This initiative was part of the E & ICT Academy Phase-II by the Ministry of Electronics & IT (MeitY), Government of India, in collaboration with ICT Academy. Our EEE, ECE and MECH faculty members, Mr. C. Dheenadayandhan AP/EEE, Dr. M. Vinoth ASP/EEE, Mrs. M. Kalaiselvi AP/ECE, Mr. S. Suresh AP/ECE,

## Faculty Development Programme on IIoT, AR/VR, and Drone Technology

Faculty members from the Departments of AI&DS, CSE, IT, ECE, and Mechanical Engineering of Selvam College of Technology, Namakkal participated in a Three-Day Short Term Training Programme held at SASTRA University from 23rd to 25th February 2026.

The programme focused on emerging technologies such as IIoT, AR/VR, and Drone Technology, offering insights into industry trends and hands-on experience with advanced tools. The initiative was strongly supported by the institution's management, whose continuous encouragement fosters faculty development and innovation. The programme significantly enhanced the participants' technical

competencies and strengthened their teaching and research capabilities, reflecting the institution's commitment to academic excellence and professional growth.
